UNITED STATES DEPARTMENT OF AGRICULTURE

SOIL CONSERVATION—INDEX TO VOLUME VIII

JULY 1942 TO JUNE 1943

Page

Accidents, farm, safety program 271–274
ACOTT, LLOYD A.: Great Divide District Pioneers in Range Control Program 165–166
Acre, selective service for. *See* Back cover July issue.
Acres—
  value to the Nation. Hugh Hammond Bennett 243, 248, 261
  wasted, war crops from. Edward H. Graham 199–204
Agricultural—
  lands, rebuilding. D. R. Dodd 89
  society, impressive record. C. R. Enlow 116
Agricultural Adjustment Agency committeemen training in grass roots conservation. Arthur W. Susott 137–139
Agriculture—
  economic changes due to war conditions 31–35
  in Philippines 190
ALBRECHT, W. A.: The Nutrient Quality of the Soil 88
Animal health, relation to soil, observations 94
Army, United States, aid to Soil Conservation Service in holding land 27–29, 46
ASBURY, T. L.: Negro Farmers Put Conservation on Permanent Basis 205–208

BATCHELOR, JACKSON M., winner scientific award 117
Bean, pinto, yields, quadrupling by terraces. R. G. Howard 14–15, 22
BEESON, KENNETH C., observations on animal health and soil interrelationships 94
BENNETT, H. H.:
  Conservation for Today and Tomorrow 38–44, 60–62
  More Food With Soil Conservation 171–176
  Some Glimpses of Rural Mexico 106–109
  Statement on land productivity 141
BENNETT, HUGH H., tribute to J. A. Bonsteel 286
BENNETT, HUGH HAMMOND: Acres Are Aces 243, 248, 261
Big Flats Nursery Conference near Elmira, N. Y., attendance list 54
BONSTEEL, J. A., death, tribute by Hugh H. Bennett 286
Book Reviews 69–70, 92–93–94, 118, 142, 189–190, 214, 237–238

Page

BRINK, WELLINGTON:
  Soil Put to Clinical Tests at Tar Hollow Conference 78–80
  These Are the Seeds of Victory 58–59
  Statement on Soil Conservation magazine on seventh birthday 6
BUIE, T. S.:
  Crotalaria Pays Off 211–213
  Runner Peanuts, a Pressing Conservation Problem 123–126, 140
BURGESS, ROBERT E.: New District Works Toward Wartime Goals 208–211
BUTLER, HAROLD J.: How Magazine District Maintains Equipment 141

CAMACHO, PRESIDENT, opening of Second Inter-American Conference on Agriculture, Mexico City. *See* Back cover October issue.
CARPENTER, RAY W.: Districts Invoke Drainage to Increase Crop-Growing Area 275–277
Cattle, dairy, feed from pastures, increase and improvement 255–257
China, soil conservation in preparation for increased crop production. W. C. Lowdermilk 150–154
CHRIST, J. H.: What Water Does for Production 65–68
Christmas tree farming. Weston Donehower and D. J. Sacco 134, 136, 142
CHURCH, J. E.: Organized Water 109–113, 115
Claunch-Pinto Soil Conservation District, wartime goals. Robert E. Burgess 208–211
Coastal Plains area drainage. Barrington King 228–230
COMBS, L. R.: Now the Farmers Tell Us 224–227
Conservation—
  at work. R. E. Uhland 177–181
  education, statement by Arthur R. Harper 91
  farming. *See* Farming, conservation.
  grass roots training of Agricultural Adjustment Agency committeemen. Arthur W. Susott 137–139
  irrigation practices for Western States 182–185, 188
  on sharp slopes of Puerto Rico. Louis F. Thomann 282–284
  pay-off in Plains country. H. H. Finnell 3–5, 6

542639—43

Page

Conservation—Continued.
problem of runner peanuts. T. S. Buie 123–126, 140
production, seed for. C. R. Enlow 249–251, 261
relation to—
nutrition and human health. Jonathan Forman 80–87, 88
production. R. H. Lush 51–52
soil. *See* Soil conservation.
through production. C. R. Enlow 148–150, 156
today and tomorrow. H. H. Bennett 38–44, 60–62
Conservation Week, in South Dakota, proclamation by Governor Bushfield 115
Contour—
farming, value in New Mexico 14–15, 22
furrowing for victory. *See* Back cover December, March, April, and May issues.
tillage, practices by farmers 224–227
Cooperation, farmer organizations for victory. Joe J. King 160–162
Corn acreage goals, 1943 246–248
Corn Belt—
farming in wartime 62–64
soil conservation program 178–180
Cotton, replacement by war-needed pastures. Charles G. Webb 186–188
Cowpower solution to problem. A. T. Semple 132–133, 140
Cows, value in farm program 132–133, 140
Cox, Joseph F., statement on wartime scarcity of seed reserves 56
Craig, J. C.: Black Locust for Good Land Use and Profit. With J. A. Gibbs 157–159
Crawford, G. L.:
Puerto Rico Meets the Challenge of War 35–37
The Agricultural Policeman of Haiti 72
Crop—
growing area, increase in drainage Districts'. Ray W. Carpenter 275–277
production—
farm plans as tools for. Thomas L. Gaston 233–234
in China, increase through soil conservation, preparations. W. C. Lowdermilk 150–154
through conservation. C. R. Enlow 148–150, 156
wartime, increase by farm drainage. John G. Sutton 195–199, 214
yields, effects of soil conservation 171–176
Cropping practices, relation to land, labor, and equipment 248
Crops, wartime, for conservation production 249–251, 261
Crotalaria, paying off. T. S. Buie 211–213

Darlington County Agricultural Society, S. C., record of annual meeting 116
Davis, John N., Lt., letter from Africa 236
"Design for Living"—
wins photograph contest 91
See Back cover November issue.

Page

Dobson, G. C.: The Unexpected Rejuvenation of George Creek. With H. A. Einstein 12–13, 22
Dodd, D. R.: Rebuilding Agricultural Lands 89
Donehower, Weston: Christmas Tree Farming. With D. J. Sacco 134, 136, 142
Drainage—
Coastal Plains area. Barrington King 228–230
farm, for increasing wartime production. John G. Sutton 195–199, 214
value for increasing crop growing area. Ray W. Carpenter 275–277
Dutch immigrant, farming for freedom in new land. V. P. McConnell 219–221, 235

Einstein, H. A.: The Unexpected Rejuvenation of George Creek. With G. C. Dobson 12–13, 22
El Salvador, soils problems, explanation by Jose Salvador Jauregui 70
Enlow, C. R.:
Famous Agricultural Society Has Impressive Record 116
Production Through Conservation 148–150, 156
Seed for Conservation Production 249–251, 261
SCS Helps U. S. Army Hold the Land 27–29, 46
Equipment, maintenance in Magazine Soil Conservation District, Ark. Harold J. Butler 141
Erosion, soil—
effects in China 150–154
problem on Cassidy farm. *See* Back cover August issue.

Faris, Phoebe O'Neall:
Book Reviews and Abstracts. Each issue except July, August, January, June.
Our Tragedy and Our Hope: A Review of *The Land* 44–46
There Is an Herbe Which Is Grown Apart by Itselfe 99–102
Farm—
drainage, increase of wartime production. John G. Sutton 195–199, 214
gullied, development into money maker. E. B. Garrett 134–135, 140
hazards, preventive work 271–274
land, conservation with fertilizers 51–52
planning, sound, and hard work. Charles G. Webb 16–17
plans, production tools. Thomas L. Gaston 233–234
production—
benefits from conservation 38–44, 60–62
relation to conservation. R. H. Lush 51–52
victory, of Wirkler in Iowa. Glennon Loyd 10–11, 17
work and sound planning. Charles G. Webb 16–17
Farmer organizations, cooperation for victory. Joe J. King 160–162
Farmers—
in New Mexico, aid by Soil Conservation Service in repair of flood damage. Duncan Scott 114–115

Page

Farmers—Continued.
Negro, conservation methods, permanent basis for. T. L. Asbury ... 205–208
reply to Soil Conservation Service. L. R. Combs ... 224–227
war pointers for Harrison, Nebraska ... 30–31
Farming—
Christmas tree. Weston Donehower and D. J. Sacco ... 134, 136, 142
conservation—
relation to labor. R. J. Fisher ... 222–224
use of legume seed. J. N. Lowe ... 155–156
for freedom by Dutch immigrant in new land. V. P. McConnell ... 219–221, 235
wartime, in Corn Belt ... 62–64
Feed, green, value in stalk fields ... 236
Fertilizers—
for 1943. H. R. Smalley ... 257–258, 262
management for increased crop yields ... 51–52
Fifth columnists versus crested wheatgrass. A. T. Semple ... 52
FINNELL, H. H.: Conservation Pays Off in the Plains Country ... 3–5, 6
Fish, dividends from wasted acres ... 200–201
FISHER, R. J.: Conservation Farming and Labor ... 222–224
Flood damage in New Mexico, repair by farmers and Soil Conservation Service. Duncan Scott ... 114–115
FOLMER, HENRI, farming for freedom in America ... 219–221, 235
Food—
increase with soil conservation, H. H. Bennett ... 171–176
production—
increase without waste, Missouri's goal. K. G. Harman ... 231–232
program, Soil Conservation Service ... 267–270, 274, 284
wartime goals ... 177–181
wartime production, statement by Henry A. Wallace ... 176
Forest fire control in Georgia, Greene County. Edward G. Grest ... 59
FORMAN, JONATHAN:
Conservation, Nutrition, and Human Health ... 80–87, 88
Soil Conservation Can Help ... 267–270, 274, 284
Friends of the Land—
meeting in Missouri, report. Russell Lord ... 90–91
meetings at Louisville, Ky., and Memphis, Tenn., outlook ... 127–131
Fruits, wild, dividends from wasted acres ... 201–203
Furs, farm, dividends from wasted acres ... 203

GARRETT, E. B.: Once Gullied Farm Now a Money Maker ... 134–135, 140
GASTON, THOMAS L.: Farm Plans—Tools for Production ... 233–234

Page

George Creek, [S. C.], rejuvenation. G. C. Dobson and H. A. Einstein ... 12–13, 22
Georgia, Green County, forest fire control. Edward G. Grest ... 59
GIBBS, J. A.: Black Locust for Good Land Use and Profit. With J. C. Craig ... 157–159
GRAHAM, EDWARD H:
Second Inter-American Conference on Agriculture ... 75–77
War Crops From Wasted Acres ... 199–204
Grain, small, seeding practices ... 116
Grass—
roots conservation training of Agricultural Adjustment Agency committeemen. Arthur W. Susott ... 137–139
seed, increases for war-emergency needs ... 53–59
seedlings, value in soil conservation nurseries ... 252–254
Great Divide district, pioneering in range control program. Lloyd A. Acott ... 165–166
GREST, EDWARD G.: Forest Fire Control in a Georgia County ... 59
GUNNING, HARRY A.: Nurseries' Part in Wartime Seed Production ... 252–254

Haiti, agricultural policeman. G. L. Crawford ... 72
HALL, ARTHUR R.: This Isn't the First Time ... 31–35
HARMAN, K. G.: More Food Without Waste—Missouri's Goal ... 231–232
HARPER, ARTHUR R., statement on conservation education ... 91
Health, human, relation to conservation and nutrition. Jonathan Foreman ... 80–87, 88
HEIN, MASON: Temporary Pastures for Wartime Production ... 255–257
HILDEBRAND, W. H: The Sullivan Sahara. With W. S. Ufer and E. A. Taylor ... 20–22
HOWARD, R. G.: Terraces Quadruple Pinto Bean Yields ... 14–15, 22

Immigrant, Dutch, farming for freedom in new land. V. P. McConnell ... 219–221, 235
"Introducción a La Geografía De Cuba", review by Lois Olsen ... 232
Iowa, Wirkler and his victory farm. Glennon Lloyd ... 10–11, 17
Irrigated lands, production reports. Frank Kimball ... 182–185, 188
Irrigation, importance in farm production ... 65–68

JAUREGUI, JOSE SALVADOR, explanation of El Salvador soils problems ... 70
JOHNSON, E. A.: Better Management Brings Back the Ranges and Provides More Meat for Larders of United Nations ... 278–282

KIMBALL, FRANK: Production Reports From Irrigated Lands ... 182–185, 188
KING, BARRINGTON:
African Assignment ... 236
Drainage for Coastal Plains Area ... 228–230

KING, JOE J.: Farmer Organizations Cooperate for Victory 160–162
Kudzu, utilization in rotation system. E. C. Richardson 162–164

Labor—
decrease, with increase in meat production. R. E. Uhland 244–248
relation to conservation farming. R. J. Fisher 222–224
Lancaster County, Pa., acceptance of war challenge. W. Martin Muth 259–260, 261
Land—
and its bounty. *See* Back cover February issue.
conservation, problem 44–46
farm, conservation, present and future 38–44, 60–62
farming for freedom by Dutch immigrant. V. P. McConnell 219–221, 235
holding by United States Army and Soil Conservation Service. C. R. Enlow 27–29, 46
meetings at Louisville and Memphis, forecast for better world. Bert D. Robinson 127–131
productivity—
conservation with fertilizers 51–52
statement by H. H. Bennett 141
use and profit through planting black locust. J. A. Gibbs and J. C. Craig 157–159
Lands—
agricultural, rebuilding. D. R. Dodd 89
irrigated, production reports. Frank Kimball 182–185, 188
Legume—
seed—
increases for war-emergency needs 54, 56, 57, 59
use in conservation farming. J. N. Lowe 155–156
seedlings, value in soil conservation nurseries 252–254
Livestock, feeding on mowed and unmowed pastures 234–235
Locust, black, value for land use and profit. J. A. Gibbs and J. C. Craig 157–159
LORD, RUSSELL: A Report on a Friendly Meeting in Missouri 90–91

McDONALD, ANGUS: Old McDonald Had a Farm. *See* Back cover August issue.
MCGINNIS, B. W.: Teaching Soil Conservation in the Elementary Schools 64
Meat, increase—
through soil betterment. A. T. Semple 156
with less labor. R. E. Uhland 244–248
Memphis, Tenn., land meetings forecasting better world. Bert D. Robinson 127–131
Mexico, rural, glimpses of. H. H. Bennett 103–109
Michigan, South Muskegon Soil Conservation District, Sullivan Township, description 20–22
Milk, increase through soil betterment. A. T. Semple 156
Missouri—
food production, goal, increase without waste. K. G. Harman 231–232
friendly meeting in, report. Russell Lord 90–91
Money, making on once gullied farm. E. B. Garrett 134–135, 140
MUTH, W. MARTIN: Famed Lancaster County Accepts War Challenge 259–261

Nebraska, Harrison, war pointers for farmers 30–31
Negro farmers, conservation methods, permanent basis for. T. L. Asbury 205–208
New Mexico—
Elena Gallegos Grant, Soil Conservation Service program 278–282
Soil Conservation Service aid to farmers in repair of flood damage. Duncan Scott 114–115
Nurseries, seed production in wartime. Harry A. Gunning 252–254
Nutrition, relation to—
conservation and human health. Jonathan Forman 80–87, 88
soil conservation 267–270, 274, 284

"Old Glory." *See* Back cover December issue.
OLSEN, LOIS, review of "Introducción a La Geografía De Cuba" 232

Pastures—
early take-out, prevention. A. T. Semple 235–236
replacement of cotton during wartime. Charles G. Webb 186–188
temporary, for wartime production. Mason Hein 255–257
wartime. A. T. Semple 164
Peacetime production aims, statement by Secretary Wickard 142
Peanuts, runner, conservation problem. T. S. Buie 123–126, 143
Pennsylvania, Lancaster County, acceptance of war challenge. W. Martin Muth 259–260, 261
Philippines, agricultural practices 190
PITTENGER, PAUL M.: Plow Method of Terrace Construction 18–19
Plains country, conservation pay-off. H. H. Finnell 3–5, 6

Page

Plow—
method of terrace construction. Paul M. Pittenger ---- 18–19
one-way, use in terrace building. Edd Roberts ---- 159–160
Policeman, agricultural, of Haiti. G. L. Crawford ---- 72
Puerto Rico—
conservation on sharp slopes. Louis F. Thomann ---- 282–284
meeting the challenge of war. G. L. Crawford ---- 35–37
Soil Conservation Service programs ---- 35–37

Range control program, pioneering of Great Divide district. Lloyd A. Acott ---- 165–166
Ranges, restoration by management in provision for United Nations' meat increase. E. A. Johnson ---- 278–282
Rejuvenation, George Creek, [S. C.] G. C. Dobson and H. A. Einstein ---- 12–13, 22
RICHARDSON, E. C.: The Use of Kudzu in a Rotation System ---- 162–164
Roads, upkeep, cutting costs during wartime ---- 7–9, 17
ROBERTS, EDD: Building a Terrace With a One-Way Plow ---- 159–160
ROBINSON, BERT D.: "The Shape of a better world" Seen in Land Meetings at Louisville and Memphis ---- 127–131
ROGERS, ETTA G.: Soil conservation bibliographies. *See* each issue.
Rotation system, utilization of kudzu. E. C. Richardson ---- 162–164
RUGELES, JOSE ANTONIO: Indigene Terraces in Venezuela ---- 227

SACCO, D. J.: Christmas Tree Farming. With Weston Donehower ---- 134, 136, 142
Schools, elementary, cooperation in teaching soil conservation. B. W. McGinnis ---- 64
SCOTT, DUNCAN: SCS Helps New Mexico Farmers to Repair Flood Damage ---- 114–115
Second Inter-American Conference on Agriculture—
Edward H. Graham ---- 75–77
Mexico City, opening by President Camacho. *See* Back cover October issue.
Seed—
for conservation production. C. R. Enlow ---- 249–251, 261
increases, for war-emergency needs ---- 53–59
reserves, wartime scarcity, statement by Joseph F. Cox ---- 56
wartime, production in nurseries. Harry A. Gunning ---- 252–254
Seeds, of victory, kinds. Wellington Brink ---- 53–59
Selective service for every acre. *See* Back cover July issue.
SEMPLE, A. T.:
Better Soil—More Meat and Milk ---- 156
Cowpower Solved His Problem ---- 132–133, 140
Crested Wheatgrass vs. Fifth Columnists ---- 52

Page

SEMPLE, A. T.—Continued.
Pastures Stop Early Take Out ---- 235–236
War on Weeds ---- 234–235
War Pastures ---- 164
SLOAN, J. M.: Soil Goes to War ---- 147–148
Slopes, sharp, conservation measures in Puerto Rico. Louis F. Thomann ---- 282–284
SMALLEY, H. R.: Fertilizers for 1943 ---- 257–258, 262
Snow-survey work, progress ---- 109–113, 115
Sod, wartime utilization. J. M. Sloan ---- 147–148
Soil—
betterment, for more meat and milk. A. T. Semple ---- 156
clinical tests at Tar Hollow conference. Wellington Brink ---- 78–80
conservation—
and technology, resolution No. 30, Spanish translation ---- 76
contribution to reconstruction after war. Jonathan Forman ---- 267–270, 274, 284
effect on food increase. H. H. Bennett ---- 171–176
in China, preparation for increased crop production. W. C. Lowdermilk ---- 150–154
permanent basis, practice of Negro farmers. T. L. Asbury ---- 205–208
practices in Iowa ---- 10–11, 17
program for increased production, recommendations ---- 51–52
teaching in elementary schools. B. W. McGinnis ---- 64
value of crested wheatgrass ---- 52
war program for farmers, of Harrison, Nebraska ---- 30–31
erosion. *See* Erosion soil.
nutrient quality. W. A. Albrecht ---- 88
relation to animal health, observations ---- 94
Soil Conservation Service—
aid to—
New Mexico farmers in repair of flood damage. Duncan Scott ---- 114–115
United States Army in holding land. C. R. Enlow ---- 27–29, 46
farm accident prevention work ---- 273–274
winner of National Safety Award. *See* Back cover January issue.
work in Southern Great Plains Region ---- 3–5, 6
Soils problems, El Salvador, explanation by Jose Salvador Jauregui ---- 70
South Dakota, Conservation Week proclamation ---- 115
Southern Great Plains Region, benefits from soil conservation program ---- 3–5, 6
Southern States, soil conservation program ---- 180–181
Sprigging machine for planting grass, description and operation ---- 29
Stalk fields, green feed value ---- 236
Stream rejuvenation, George Creek, S. C. ---- 12–13, 20
Sugarloaf Soil Conservation District, Nebraska, war program ---- 30–31
